

Engine internal cleaner

Oil System Cleaner

Product properties: Oil System Cleaner removes operationally caused contamination and resin deposits in the entire oil and lubricant system. It removes residues and carbon from piston rings and upper cylinder area. It neutralises harmful engine acids.

Area of application: For use in private and commercial motor vehicles, all petrol and diesel engines, manual transmissions and differentials, motorcycles and other high speed engines (e.g. ship and boat area, Karts, racing car, lawn mower, etc..)

Application notes: Add to the oil circulation before the oil change. Allow the engine to idle for approx.. 15 minutes. Carry out an oil change afterwards.

Note: The Oil System Cleaner can be disposed of in the same way and with the waste oil.

Consumption per vehicle: 200 ml for motorcycles
375 ml for passenger cars
75 ml per litre amount of oil filled for the permanent cleaning of truck systems.

Working time: approx.. 15 min. idling phase with private car vehicles.

Frost susceptibility: No

Available container size: 300 ml tin
5 l can
25 l can
200 l barrel
