

Air Condition Disinfectant Aerosol

Product properties:

A specially developed cleaning liquid to professionally and economically free air conditioning units from bacteria and fungi. The cleaner leaves a fresh and pleasant scent after use. The product also removes stale odours, forms a protective film on the evaporator and cleans the air channels.

Area of application:

Air Conditioner Cleaner has been especially developed for the cleaning and disinfection of air conditioning units in cars, trucks, busses and houses. Reliably removes all bacteria and micro organisms from the ventilation channels of the air conditioning unit and within the climatized room.

Instructions for use:

Switch off the air conditioning unit before disinfection. Shake the can well before use. Spray the disinfection solution directly into the ventilation channels of the air conditioning unit and allow to work for a short time. In the meantime spray short bursts around the room to disinfect the rest of the room. Then switch the unit back on again. The product is non-toxic and does not cause allergies.

Caution:

Pressurised Container. Protect from sunlight and do not expose to temperatures exceeding 50°C.
Do not pierce or burn even after use.
Do not spray onto naked flames or glowing material.
Irritates the eyes. Vapours can cause drowsiness and dizziness.
No smoking.
Keep out of the reach of children!

Consumption per Use:	250 ml
Frost susceptibility:	No
Working time:	approx. 30 - 60 sec.
Material contents:	Disinfectant, scents, Propane/Butane mixture

Available container size:	Article number:
250 ml Aerosol	35120
