

## Air Condition Cleaning Set Foam Cleaner Aerosol

### Product properties:

Reliably removes soiling, bacteria, mould, algae and micro organisms in the air conditioning unit.

Unpleasant odours caused by bacteria and mould are effectively eliminated and a protective film over the cooling condensator provides for clean, fresh air and an optimal cooling performance. the manufacturer's service recommendations for cleaning the air conditioning unit are to be observed.

### Area of application:

Air Conditioner Foam Cleaner has been especially developed for the quick and uncomplicated cleaning of air conditioning units in cars, trucks and busses and in buildings.

### Instructions for use:

Switch off the air conditioning unit before use, remove the cover and the filters. Shake the can well before using. Spray the Foam Cleaner onto the cooling coil and allow to work for 10 to 15 minutes. Then refit the cover and filters. Switch the unit back on and run at the lowest level. Initially a dry hand towel can be placed in front of the outlet vents to prevent droplets of the cleaner eventually being blown out into the room. The product is non-toxic and does not cause allergies.

### Caution:

Pressurised Container. Protect from sunlight and do not expose to temperatures exceeding 50°C.

Do not pierce or burn even after use.

Do not spray onto naked flames or glowing material.

Irritates the eyes. Vapours can cause drowsiness and dizziness.

Keep out of the reach of children!

<b>Consumption per Use:</b>	250 ml.
<b>Frost susceptibility:</b>	No
<b>Working time:</b>	approx. 60 - 90 sec.
<b>Material contents:</b>	Tensides, Propane/Butane mixture
<b>Available container size:</b>	250 ml
<b>Article number:</b>	35110 Aerosol
