

Diesel Conditioner and Anti-Gel Cleaner

Diesel Protection Winter

Product properties:

The product improves the flow behaviour of Diesel fuel during winter operation. It prevents gels forming in the fuel during extremely cold weather and keeps the fuel lines and filters free. The product is suitable for all diesel qualities and provides a safe winter operation.

Areas of application:

As an additive to the fuel tank.

Instructions for use:

To be added to the fuel before filling and before the frost period begins.

Note:

The product is a cleaning liquid and not a fuel substitute!
 Use only in well ventilated rooms!
 Keep away from naked flames!
 No smoking!
 Keep out of children's reach!

Consumption per vehicle:

300ml is sufficient for a tank filling

Frost susceptibility:

No

Working time:

Works during driving use

Material contents:

Aliphatic carbon hybride, petrol ether faction, additives

Available sizes/ Product Code:

300 ml can 33088

(other sizes available on request)

powermax
