

HIGH PERFORMANCE PETROL SYSTEM CLEANER LPG BENZIN SYSTEMREINIGER LPG

Product properties:	This high-performance product has especially been developed for liquefied petroleum gas (LPG) powered vehicles. Even smallest particles of contamination and resin deposits in the combustion chambers are lastingly dissolved (Keep Clean Effect). Highly active lubricating components guarantee reliable protection of the valves against wear and tear and corrosion. The product optimises the fuel consumption and emission and extends the life span of the engine and ensures optimal protection against "valve impact". Regular use ensures long-term stability of the fuel.
Application fields:	Application to the fuel tank of bivalent vehicles (gas/petrol powered).
Application:	Add regularly every 3 to 4 months or every 10,000 km to the fuel system prior to filling up. Optimal results will be achieved when the product "LPG System Clean and Protect" is used in combination.
Dilution ratio:	To be used un-diluted.
Notice:	Cleaning fluid – Not a fuel substitute! Use only in a well-ventilated area. Keep away from sources of ignition - No smoking. Keep out of the reach of children.
Consumption:	375 ml sufficient for 80 litres fuel.
Reaction time:	Works during operation.
Frost susceptibility:	no
Material contents:	aliphatic hydrocarbons, additives
Available Container sizes:	375 ml (33346) Other container sizes are available upon request.
