

Radiator Conditioner

For car, bike and boat

Product properties:

Radiator Conditioner protects against rust, corrosion and lime scale. It lubricates valves, thermostats and the water pump. It improves the heat exchange and keeps the coolant's pH-value stable. Radiator conditioner is compatible with all antifreeze brands.

Area of application:

For use in all water-cooled engines.

Instructions for use:

Add to cooling system regularly at every advised service interval. For best results, we recommend flushing the cooling system with **powermaxx Radiator Flush** beforehand.

Consumption per application:

300 ml sufficient to treat cooling systems of 4 - 8 litres capacity.

Note:

Keep out of the reach of children. If swallowed, seek medical advice immediately and show this container or label.

Frost susceptibility:

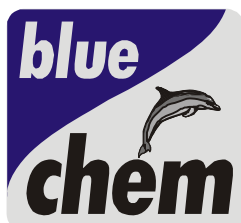

no

Available container sizes:

300 ml	5 litres	25 litres	200 litres
